Science & Engineering Research Projects
in Hannover and Clausthal, Germany

When: May 19th - August 8th, 2014 (12 weeks)
Where: At engineering and natural science institutes at Leibniz Universität Hannover or Clausthal University of Technology
Program: - Research project at designated institute
- Company visits to VW, Airbus, MTU, Sennheiser
- Social activities
Costs: Partner university students pay 2,500 € (approx. 3,500 $) for 12 weeks, other 3,000 €,
including
- placement fee
- accommodation
- health insurance
- company visits
- public transportation
Credits: Students will typically receive 12 ECTS credit points in total.
However, acknowledgement of ECTS credit points depends on regulations at the home university.
Applicants: Engineering & natural science students at least in their fifth semester. English language proficiency requirements for non-native speakers: TOEFL or IELTS
Application deadline: March 15th, 2014

Welcome

Welcome to Clausthal University of Technology and Leibniz Universität Hannover, Germany’s most highly regarded universities of science and technology (TU9*)! We kindly invite you to participate in our three-months summer ‘Science & Engineering Research Projects’ program.

*Excellence in Engineering and the Sciences Made in Germany

About the cities

Hannover, capital of the federal state of Lower Saxony, is not only home to the world famous CeBIT, but also headquarter of world known companies such as VW, Continental, MTU, Sennheiser or Bahlsen. It is a safe, green and lively city in the middle of Europe.

Clausthal-Zellerfeld, a picturesque university town, has a long and distinguished history of mining and engineering research. It is located in the Harz Mountains, surrounded by UNESCO World Heritage ‘Upper Harz Water Management System’.

Program Details

Students will participate in a 12-week research project. Participants will be supported by a personal supervisor at the designated institute.

A German ‘Study Buddy’ will be assigned to the student on the first day of arrival in Germany.

German (evening) language classes can be booked separately.

All aspects of this program are conducted in English.

Tuition & Application

Partner university students pay 2,500 € (approx. 3,500 $) in total, other 3,000 €, including deposit and program fee. The deposit of 700 € (approx. 950 $) has to be paid due upon submission of application.

Tuition includes:

- Placement fee
- Accommodation
- Health insurance
- Company visits
- Public transportation

Natural science and engineering students can apply at suitable placements available for this program.
