We want to hear from you!

Make sure to [update your information](#) so that you don't miss out.

Thank you to everyone who joined us for Homecoming 2012. We had over 250 people back on campus for Hootenanny, reunions and a variety of activities.

Now we are transitioning to commencement. Graduation will be held at the Longview campus on May 7th and in Houston at Houston First Baptist on Saturday, May 14th. Pray for our graduates as they seek employment where they can use their knowledge, skills and commitment to the Lord.

Sincerely,

Martha Steed

Director of Alumni and Parent Relations

### Online Yearbooks

- You can now see online archives of past LETU yearbooks in a friendly flip-through format. Years 1948-58, 1962 and 1975 are currently available. You can access the "Pioneer Archives" [here](#).

## Jobs

### *Dynamic Aviation - Director of Engineering*

Dynamic Aviation is the leading supplier of aerial platforms configured for special missions throughout the world. They routinely provide aircraft to accomplish a variety of missions including Intelligence Surveillance and Reconnaissance; Airborne Data Acquisition; Fire Management; Aerial Application and Sterile Insect Technique. Customers include federal, state and local governments; non-profit research organizations and private corporations.

The company is seeking to fill the Director of Engineering position to lead the in-house engineering department and contractual engineering relationships at Dynamic Aviation.

The experience profile of this individual must be heavily weighted around aircraft modification. Core responsibilities include leading the engineering of aircraft modifications and pursuing approval with appropriate regulatory. Experience directing the Supplemental Type Certificate (STC) approval process would be preferred.

Dynamic Aviation Group, Inc. offers a competitive salary, benefits and an excellent work environment. For further information about the position duties and responsibilities, please contact Joel Shank at [jshank@dynamicaviation.com](mailto:jshank@dynamicaviation.com). Learn more about Dynamic Aviation at [www.dynamicaviation.com](http://www.dynamicaviation.com).
