This coded message has just come to us in the diplomatic pouch from our consulate in Diani Landzeabourg. We have **faith** that it comes to us with some importance. Our normal decoders are at church middle school winter retreat. We need your help. An example of the code is given for "HELLO WORLD" See how the shapes match the patterns in the grids on the right? Do your best, please. Maybe you have a middle schooler you can get to help. When you finish the decoding, pass the message along to the chairman of your prayer committee.
