D E H M R Y D B A S D W W L S I N T R D B E W I U S N A

We have a report of letters down. Witnesses say they fell straight down out of their columns. Some remain in place. We're going to need repair crews to study the fallen letters and look first for single empty cells, then to two and three letter patterns whose combinations make sense. Don't be fooled by punctuation marks. Operators are standing by for your expertise.
