

Chapter Ten

Questions for Reflection and Discussion

1. How does the engineering mindset help you relate to Christ?
2. How can logic be useful in discussions about engineering and faith?
3. Have you struggled with wanting to fix everything, including people?
4. How do you deal with the imperfections of the real world?
5. How can we stop over-relying on our own understanding?
6. Do you feel the need to control everything in life? How do you deal with that?
7. When have you viewed an issue at work differently from your colleagues because you were a believer?
8. How are your relationships at work different because of your faith?
9. What other issues arise for a Christian in engineering?
