HAVE A QUESTION? CALL 903-233-3094

**Week 1: June 17-21, 2024**

**8:00 AM - 12:00 PM**

Artful Antics	grades K-2	\$190
Junior Olympics 2024	grades K-3	\$190
Mad Scientists	grades K-4	\$190
Young Einsteins	grades K-4	\$190
Jr. Robotics: VEX GO (NEW)	grades 2-5	\$190
LeTourneau Space Camp	grades 2-5	\$230
BattleBots Robotics Competition	grades 3-7	\$190
Minecraft	grades 3-12	\$150
Coding	grades 4-12	\$150
Jr. Engineers	grades 5-8	\$190
3D Printing (NEW)	grades 5-12	\$190
Psych Crime Investigations	grades 6-12	\$100
Survival Skills Camp	grades 5-12	\$230

**Week 2: June 24-28, 2024**

**8:00 AM - 12:00 PM**

Artful Antics	grades K-2	\$190
Ready...Set... GAMES! (NEW)	grades K-3	\$190
Young Einsteins	grades K-4	\$190
Jr. Robotics: VEX GO (NEW)	grades 2-5	\$190
Wings and Flying Things	grades 2-6	\$230
BattleBots Robotics Competition	grades 3-7	\$190
Camp You-Koo-Lay-Lay <i>You Get to KEEP your UKE!</i>	grades 2-7	\$200
Jr. Engineers	grades 5-8	\$190
Minecraft	grades 3-12	\$150
Coding	grades 4-12	\$150
Survival Skills Camp	grades 5-12	\$230
Self-Defense for TEENS (NEW)	grades 9-12	\$150

**Week 1: June 17-21, 2024**

**1:00 PM - 5:00 PM**

How the GRINCH MOVED Christmas!	grades K-4	\$190
Camp Crafty	grades K-4	\$190
Fun & Games with Self Defense	grades K-4	\$150
Jr. Robotics: LEGO Science	grades 2-4	\$190
Incredible Stuff	grades 2-5	\$230
Medieval Times	grades 2-7	\$190
Upcycle / Recycle Art	grades 3-7	\$190
Minecraft	grades 3-12	\$150
Minecraft	grades 3-12	\$150
BattleBots Robotics Competition	grades 4-9	\$190
3D Printing (NEW)	grades 5-12	\$190

**Week 2: June 24-28, 2024**

**1:00 PM - 5:00 PM**

Fun & Games with Self Defense	grades K-4	\$150
Once Upon a STEM	grades K-2	\$190
Passports & Pawprints	grades K-5	\$190
An Animal ART Adventure Around the World		
Jr. Robotics: LEGO Science	grades 2-4	\$190
Fabulous Flying Creations	grades 2-4	\$190
Slime Camp	grades 4-8	\$230
BattleBots Robotics Competition	grades 4-9	\$190
You Made That?!	grades 5-8	\$190
Minecraft	grades 3-12	\$150
Minecraft	grades 3-12	\$150

# June 17-21, 2024

## 8:00 AM-12:00 PM

**Artful Antics (grades K-2) \$190:** Do you love to paint, draw, color, and get messy? Then you have found your camp! We will have a fun week full of art activities, including painting with shaving cream, watercolor paints, mosaics, coloring, cutting, and gluing to create wonderful works of art. LOTS of artwork and creativity happening in this camp. Director: Allison Wooden

**Junior Olympics 2024 (grades K-3) \$190:** Let the 2024 LETU Summer Junior Olympics begin! Get ready to run, jump, be silly, and have TONS of FUN through friendly and active play with our very own Summer Olympics. We will have "Olympic" type outdoor activities to challenge young campers to work together to achieve the GOLD. Campers will learn sportsmanship, the value of teamwork, and the character of a true Olympian. Please note: Active clothes, tennis shoes and socks required! Director: Katie Zappasodi (LETU Wellness Programs Coordinator)

**Mad Scientists (grades K-4) \$190:** Attention all young scientists! Are you curious about science and ready to try new experiments? Each day we combine learning, science discovery and physical fun to find answers to questions by putting in the hard work and doing lots and lots of crazy experiments. Learn about the sun and its effects, enjoy an ooey-goopy day, experience hot verses cold day. Then end the camp week experimenting on what all kids love the most... candy! Director: Charity Boozier

**Young Einsteins (grades K-4) \$190:** Attention all young scientists! Enjoy this interactive camp that will encourage your mind to ask questions and seek out answers through experiments! Each day we will combine learning, science discovery, and physical fun to find answers to questions by putting in the hard work and doing lots of crazy FUN experiments. Get ready to explore your curiosity and increase your love for science in this hands-on creative camp. Director: Alison Roedel

**Jr. Robotics– VEX GO NEW (grades 2-5) \$190:** This beginner robotics camp incorporates STEM, Computer Science (Coding), and Robotics for campers so that they learn to understand themselves as capable and creative engineers, coders and problem-solvers. VEX GO is a construction system that teaches the fundamentals of STEM through fun, hands-on, activities that help young campers perceive coding and engineering in a fun and positive way! Campers will work in pairs together to create and cooperate as they effectively build, code and design robots. This is a NEW system and NEW camp that we are excited to bring to your young builders. Great camp for young engineers! Director: Paula Hjorth

**LeTourneau Space Camp (grades 2-5) \$230 :** Yes, it is Rocket Science! Join the hundreds of other young astronauts who have set their sights on the stars. Learn about the Solar System, Newton's laws of motion, and build a different take-home project every day. Construct, decorate, and launch your very own TWO FOOT TALL REAL rocket that will soar nearly 1000 feet into the Texas sky! Don't get left on the ground. Outer Space may be infinite, but we have room for only a limited number of Junior Space Explorers. Director: "Mr. Lee" Wilkinson

**BattleBots Robotics Competition (grades 3-7) \$190:** Let the battle BEGIN! Whose BattleBot will be the "last robot standing"? Will it be yours? Come enjoy this engaging and competitive camp where partners work together to design and build their own motorized robot to compete in the BattleBot championship! Partners will participate in individual and group mini challenges using math, science, engineering and technology to earn points that can be redeemed for "extra items" to help transform their robot into a true BattleBot! Who is up for the challenge? Director: Janice Park

**Minecraft (grades 3-12) \$150:** Calling all Minecrafters! Whether you are a beginner or expert, we have something for you. Love Creative Mode? You and your team members will collaborate on a truly epic construction project. Prefer to test your skills in Survival Mode? Your team will work together, pooling your knowledge and gathering resources to defend your underground lair or mountaintop castle from Creepers and Endermen. PLUS, other exciting events! With an emphasis on teamwork and fun in all activities, join us for the most memorable Minecraft experience of your year! Director: Jessica Starks

# June 17-21, 2024

## 8:00 AM-12:00 PM

**Coding (grades 4-12) \$150:** Want to create your own game or app? Curious about coding, but don't know where to start? Come join our introductory camp, and you'll find yourself in the fun and challenging world of coding. We'll use CODE.ORG's beginner-friendly curriculum to develop simple algorithms that perform complex tasks. Working alone or in teams, campers will have the opportunity to design, code, and debug games and apps to show off to their family and friends. Director: Ethan Cooper

**Jr. Engineers (grades 5-8) \$190:** This is the camp for inventors and creators! We will build mousetrap powered race cars, flying objects, air-powered missiles, boats or submarines and launch EGGstronauts in vehicles of our own design from a giant slingshot....to name a few. If it can go, we will make it! Let your creativity soar. Director: Lance Homeniuk

**3D Printing NEW (grades 5-12) \$190:** Are you ready to enter into the exciting world of 3D printing? No experience required to design and print your own creations to take home. Based out of LeTourneau's Maker Lab, campers will draw designs on the computer, print them on 3D printers, and be hands-on while learning how to make the best prints possible. Sign up for this high-tech camp to bring your imagination to life using this powerful new technology! Director: Darryl Low (LETU Engineering Professor)

**Psych Crime Investigations (grades 6-12) \$100:** Have you ever been curious on how to solve crimes? Want to know the behind-the-scene ways that cops are able to capture criminals? Are you good at looking for clues? Then this camp is for you! Come learn how to investigate in real crime scene scenarios by using the tactics and techniques that real Longview Police Officers teach to help solve crimes. Enjoy learning how to fingerprint, and put on handcuffs to your criminals as an added BONUS! Get ready to use your mind and skills and put them to work. Director: Officer Bryan Bankston

**Survival Skills Camp (grades 5-12) \$230:** You find yourself in the middle of nowhere with nothing but the clothes you are wearing and the things in your pocket. What do you do first? Campers will learn how to manage emergency and survival situations with the skills we learn through the week. We will cover priorities of work in a survival situation such as: basic first aid techniques (no certifications will be provided), building a basic shelter, building a fire, finding safe water and food, how to signal for help, and how to navigate. We will have a group competition at the end of the week to challenge the skills learned during the week.

*Each camper will leave the week with a bag FULL of survival supplies.*

***This camp will take place primarily outdoors and will involve outdoor walking and activities. Tennis shoes and socks required!***

Director: Ruedi Schubarth (LETU Aviation Professor)

# June 17-21, 2024

## 1:00 PM-5:00 PM

**How the GRINCH MOVED Christmas! (grades K-4) \$190:** Who says Christmas can only come once a year?? Not at this popular camp! Campers will enjoy a different theme for each day of camp, including: GRINCH day, Snow Fun, All Things Candy and Gingerbread, Reindeer Games, and our Holly Jolly Christmas Party. Every day of camp we will include FUN hands-on activities such as: games or a gingerbread decorating contest and we will bring out creativity with arts and crafts, including: making their own snow globe, learning how to draw the GRINCH, painting a fun picture of Santa Claus, and more! What a great time to enjoy learning the true meaning of Christmas! It's beginning to look a LOT like Christmas and we LOVE it! Director: Allison Wooden

**Camp Crafty NEW (grades K-4) \$190:** Let's make crafts, more crafts, and why not... even more crafts!

If you have a child that is super creative and enjoys making arts and crafts, then this is their camp! They will enjoy hands-on FUN all week long and be excited to show off all of their daily creations. Director: Alison Roedel

**Fun and Games with Self Defense (grades K-4) \$150:** Kids learn through PLAY! That's why this popular energetic class is full of games and activities that translate into self-defense later in life. Campers enjoy FUN games including balance drills and stranger danger that will keep them on task, physically moving and motivated. This is a GREAT class for those with lots of energy! The children are our future, let's keep them safe and have FUN while learning. Director: Emmett Shankle

**Jr. Robotics- LEGO Science (grades 2-4) \$190:** This beginners engineering robotic camp encourages kids to use their minds to learn how to bring their robot creations to life! LEGO WeDo Science software uses the LEGO pieces kids already love, and incorporates new STEM concepts like engineering and programming. We will be teaching our campers how to design, create, and program robots! They will learn a drag and drop method of coding that will instruct their robots movements. Campers work together in teams and will show off their brilliant robotic creations on the final day of camp. Who is ready for the challenge? Director: Paula Hjorth

**Incredible Stuff (grades 2-5) \$230:** Have you ever wanted to make your own chewing gum? Gummy bears? Soda pop? What about building your own catapult? Make bath bombs? Construct flying machines? You can do all this and much more in this exciting camp! Lots of thrilling hands-on projects keep young scientists busy all week. Don't wait, this camp fills up very fast! Director: "Mr. Lee" Wilkinson

**Medieval Times (grades 2-7) \$190:** Enter through the drawbridge into the world of castles, knights, and dragons. Role play life in a feudal society, create your own coat of arms, practice knightly manners and sword play. On Friday we will witness a dragon burp, fight in a melee, fire a trebuchet, and storm castle walls. You don't want to miss this amazing camp! Director: Lance Homeniuk

**Upcycle / Recycle Art (grades 3-7) \$190:** There is a saying, "One man's trash is another man's treasure." This camp brings this saying to life! Campers will learn that just about anything you might have lying around your house can be transformed into a beautiful work of art. Get ready to allow your creativity to show off your personality in this camp. Enjoy the world of upcycle/recycle art creations in this unique and exciting art camp! Director: Carolyn Jagers

# June 17-21, 2024

## 1:00 PM-5:00 PM

**Minecraft (grades 3-12) \$150:** Calling all Minecrafters! Whether you are a beginner or expert, we have something for you. Love Creative Mode? You and your team members will collaborate on a truly epic construction project. Prefer to test your skills in Survival Mode? Your team will work together, pooling your knowledge and gathering resources to defend your underground lair or mountaintop castle from Creepers and Endermen. PLUS, other exciting events! With an emphasis on teamwork and fun in all activities, join us for the most memorable Minecraft experience of your year! Director: Ethan Cooper

Based out of LeTourneau’s Maker Lab, campers will draw designs on the computer, print them on 3D printers, and be hands-on while learning how to make the best prints possible. Sign up for this high-tech camp to bring your imagination to life using this powerful new technology! Director: Darryl Low (LETU Engineering Professor)

# June 24-28, 2024

## 8:00 AM-12:00 PM

**Artful Antics (grades K-2) \$190:** This camp is so popular we are offering it a second week! Do you love to paint, draw, color, and get messy? Then you have found your camp! We will have a fun week full of art activities, including painting with shaving cream, watercolor paints, mosaics, coloring, cutting, and gluing to create wonderful works of art. LOTS of artwork and creativity happening in this camp.  
Director: Allison Wooden

**Ready...Set... GAMES!! NEW (grades K-3) \$190:** Who loves sports games? WE DO!! This FUN sports themed, energy-filled camp is unlike other sports camps. Young campers get ready to move, learn some coordination, learn to work as a team all while experiencing a BIG and UNIQUE sports adventure. No previous sports experience is required, because this camp makes its own rules. Lots of giggles and wiggles will be experienced in this camp for kids with lots of energy! *Please note: Active clothes, tennis shoes and socks required!*  
Director: Katie Zappasodi (LETU Wellness Programs Coordinator)

**Young Einsteins (grades K-4) \$190:** Attention all young scientists! Enjoy this interactive camp that will encourage your mind to ask questions and seek out answers through experiments! Each day we will combine learning, science discovery, and physical fun to find answers to questions by putting in the hard work and doing lots of crazy FUN experiments. Get ready to explore your curiosity and increase your love for science in this hands-on creative camp. Director: Alison Roedel

**Jr. Robotics– VEX GO NEW (grades 2-5) \$190:** This beginner robotics camp incorporates STEM, Computer Science (Coding), and Robotics for campers so that they learn to understand themselves as capable and creative engineers, coders and problem-solvers. VEX GO is a construction system that teaches the fundamentals of STEM through fun, hands-on, activities that help young campers perceive coding and engineering in a fun and positive way! Campers will work in pairs together to create and cooperate as they effectively build, code and design robots. This is a NEW system and NEW camp that we are excited to bring to your young builders. Great camp for young engineers! Director: Paula Hjorth

**Wings and Flying Things (grades 2-6) \$230:** Calling all Junior Aviators! Do you like airplanes? Helicopters? Balloons? Gliders? Then go ahead and sign up now! We will explore what makes things fly through the air by building model airplanes, rubber band powered helicopters, helium airships, and real hovercraft. Try your hand flying the X-Plane Simulator. And see if you can land your aircraft on the runway! Explore the world of the air in this super exciting camp taught by a Certified Flight Instructor. Director: “Mr. Lee” Wilkinson

**BattleBots Robotics Competition (grades 3-7) \$190:** Let the battle BEGIN! Whose BattleBot will be the “last robot standing”? Will it be yours? Come enjoy this engaging and competitive camp where partners work together to design and build their own motorized robot to compete in the BattleBot championship! Partners will participate in individual and group mini challenges using math, science, engineering and technology to earn points that can be redeemed for “extra items” to help transform their robot into a true BattleBot! Who is up for the challenge? Director: Janice Park

**Camp Yoo-Koo-Lay-Lay You KEEP your UKE! (grades 2-7) \$200:** It is time to let your musical side grow! We provide the ukulele and you provide the FUN! Are you at all curious to learn how to play the ukulele? Well, we can help with that! You will be taught the basic chords and foundations to play. You will work on music together that you can “show off” on your final day of camp. What do you do after the camp is done– PLAY MORE! Because *the ukulele goes home with you*. We hope to leave you with the love of playing the ukulele and start your summer filled with music.  
Director: Meredith Ramos

**Jr. Engineers (grades 5-8) \$190:** This is the camp for inventors and creators! Campers will build mousetrap powered race cars, flying objects, air-powered missiles, boats or submarines and launch EGGstronauts in vehicles of our own design from a giant slingshot...to name a few! If it can go, we will make it! Let your creativity soar. Director: Lance Homeniuk

# June 24-28, 2024

## 8:00 AM-12:00 PM

**Minecraft (grades 3-12) \$150:** Calling all Minecrafters! Whether you are a beginner or expert, we have something for you. Love Creative Mode? You and your team members will collaborate on a truly epic construction project. Prefer to test your skills in Survival Mode? Your team will work together, pooling your knowledge and gathering resources to defend your underground lair or mountaintop castle from Creepers and Endermen. PLUS, other exciting events! With an emphasis on teamwork and fun in all activities, join us for the most memorable Minecraft experience of your year! Director: Jessica Starks

**Coding (grades 4-12) \$150:** Want to create your own game or app? Curious about coding, but don't know where to start? Come join our introductory camp, and you'll find yourself in the fun and challenging world of coding. We'll use CODE.ORG's beginner-friendly curriculum to develop simple algorithms that perform complex tasks. Working alone or in teams, campers will have the opportunity to design, code, and debug games and apps to show off to their family and friends. Director: Ethan Cooper

**Survival Skills Camp (grades 5-12) \$230:** You find yourself in the middle of nowhere with nothing but the clothes you are wearing and the things in your pocket. What do you do first? Campers will learn how to manage emergency and survival situations with the skills we learn through the week. We will cover priorities of work in a survival situation such as: basic first aid techniques (no certifications will be provided), building a basic shelter, building a fire, finding safe water and food, how to signal for help, and how to navigate. We will have a group competition at the end of the week to challenge the skills learned during the week.

*Each camper will leave the week with a bag FULL of survival supplies.*

**This camp will take place primarily outdoors and will involve outdoor walking and activities. Tennis shoes and socks required!**

Director: Ruedi Schubarth (LETU Aviation Professor)

**Self-Defense for TEENS NEW (grades 9-12) \$150:** *We highly encourage all teens to attend this camp!!* Teens will be taught self-defense skills in a safe and controlled environment. Prevention measures will be demonstrated to increase awareness and avoid dangerous situations. Camp will include: reality-based scenarios, exit strategies, and more. Mr. Emmett is a skilled instructor that is well relatable with teens. He knows of the dangers that surrounds our teens here in Longview, and is ready to help them be aware and prepare for their safety. Director: Emmett Shankle

# June 24-28, 2024

## 1:00 PM-5:00 PM

**Fun & Games with Self Defense (grades K-4) \$150:** Kids learn through PLAY! That's why this popular energetic class is full of games and activities that translate into self-defense later in life. Campers enjoy FUN games including balance drills and stranger danger that will keep them on task, physically moving and motivated. This is a GREAT class for those with lots of energy! The children are our future, let's keep them safe and have FUN while learning. Director: Emmett Shankle

**Once Upon a STEM NEW (grades K-2) \$190:** Once upon a time, there was a camp that learned that storybooks can be a powerful way to introduce scientific STEM concepts to young creative minds. This camp will help enhance and excite campers creativity and curiosity together through STEM projects as they look at the world full of stories. Director: Alison Roedel

**Passports & Pawprints—An Animal ART Adventure Around the World (grades K-5) \$190:** Come travel with us around the world through ART, ANIMALS and CULTURE! Each day we will focus on a different culture and learn about the ANIMALS that live in its habitat. Creating beautiful pieces of art by bringing the two things together, from the Molasses of Mexico to Gyoatoko fish printing of Japan! This camp will incorporate many techniques- printmaking, painting, drawing, collage, and fabric art to expose the campers to a variety of art making methods. Then on the final day of camp, come enjoy an "Around the World Art Exhibit" to show off our fabulous camper creations! Director: Carolyn Jagers

**Jr. Robotics— LEGO Science (grades 2-4) \$190:** This beginners engineering robotic camp encourages kids to use their minds to learn how to bring their robot creations to life! LEGO WeDo Science software uses the LEGO pieces kids already love, and incorporates new STEM concepts like engineering and programming. Teaching our campers how to design, create, and program robots! They will learn a drag and drop method of coding that will instruct their robots movements. Campers work together in teams and will show off their brilliant robotic creations on the final day of camp. Who is ready for the challenge? Director: Paula Hjorth

**Fabulous Flying Creations (grades 2-4) \$190:** What do you get when you have a LeTourneau Engineering professor that loves the world of Aviation? You get to ENJOY a camp that centers around creating lots of cool flying things! If you like making things that FLY, are creative and curious... then this is your camp. Time to let your imagination soar! Director: JoLin Gowing (LETU Engineering Professor)

**Slime Camp (grades 4-8) \$230:** Have you ever wanted to get slimed? Here is your chance in this exciting Chemistry camp. Junior chemists use real scientific equipment to make tons of slime, ooze, slush, S.S.N.O.T., Elephant Toothpaste, and many other polymer creations. At the end of the week, each student takes home their own equipment and supplies to continue their experiments post-camp! Don't let this slimy camp slip past you as it is VERY Popular, sign up today! Director: "Mr. Lee" Wilkinson

**BattleBots Robotics Competition (grades 4-9) \$190:** Let the battle BEGIN! Whose BattleBot will be the "last robot standing"? Will it be yours? Come enjoy this engaging and competitive camp where partners work together to design and build their own motorized robot to compete in the BattleBot championship! Partners will participate in individual and group mini challenges using math, science, engineering and technology to earn points that can be redeemed for "extra items" to help transform their robot into a true BattleBot! Who is up for the challenge? Director: Janice Park

# June 24-28, 2024

## 1:00 PM-5:00 PM

**You Made That?! (grades 5-8) \$190:** If you like to design and create your own gifts, then come and enjoy this **CALM** and **CREATIVE** camp that brings out your inner fashionista! Why buy jewelry from the store, when you can make (and even sell!) your own creations? Let your inner designer customize creative ways to make jewelry such as: tie-dye bracelets, hemp bracelets, layered necklaces and bracelets, friendship bracelets, daisy chains, dangle earrings, and so much more! Every day of camp you will leave with at least 2 or 3 pieces of your own beautiful creations Director: Allison Wooden

**Minecraft (grades 3-12) \$150:** Calling all Minecrafters! Whether you are a beginner or expert, we have something for you. Love Creative Mode? You and your team members will collaborate on a truly epic construction project. Prefer to test your skills in Survival Mode? Your team will work together, pooling your knowledge and gathering resources to defend your underground lair or mountaintop castle from Creepers and Endermen. PLUS, other exciting events! With an emphasis on teamwork and fun in all activities, join us for the most memorable Minecraft experience of your year! Director: Ethan Cooper
